Activation of this benefit ensures that you will be notified if any changes are made to your credit report. Due to industry regulations, all SOLUS members must activate the credit monitoring benefit. We cannot simply add it to your program as you will need to provide additional personal information that was not required during your initial enrollment. This information includes your social security number during the enrollment process and possibly credit account numbers during the verification process. We understand that this may make some feel uncomfortable, so as a voluntary benefit to the program, you may choose not to activate. However, credit monitoring is a helpful tool in the fight against identity theft, so we urge all of our members to take advantage of this exciting benefit.
